1. Québec is excluded from administrative weapons offences "where firearms are present and a violent violation" due to a high proportion of incidents where information on weapons was reported as unknown.

2. Refers to the total number of incidents involving an administrative weapons offence with an accompanying violation. Includes only violent violations where the most serious weapon present was a firearm.

3. Includes incidents where one or more administrative weapons offences was accompanied by one or more violent violations. Includes only incidents where the most serious weapon present was a firearm.

4. Includes incidents where one or more administrative weapons offences was accompanied by one or more non-violent violations.

5. Effective 1998-12-01.

Notes: If multiple administrative weapons offences were found on the same incident, the accompanying violent and non-violent offences are counted under both violations. If an administrative weapons offences was found as an accompanying violation, the incident was counted under the category of accompanying non-violent violation.
